

CCAMS

Corpus Christi Area Measurement Society

2018 Scholarship info and application due June 15

With assistance from monies raised with its annual school, CCAMS awards scholarships to students who are working to continue their education, either in college or equivalent training. Last year the Society awarded 38 students a total of \$53,000 to assist with school costs. This year scholarships are again available and students should apply now. If you would like to apply or know of someone who might benefit from our scholarship, contact us via e-mail at: ccams2013@yahoo.com. You can also follow the scholarship link on our homepage at: www.ccams.info. Apply now!

Keep up with CCAMS

Want to stay in the know? Then, visit us on Facebook and LinkedIn. We love keeping up with our friends in the field and want to share our shared experiences. Post pictures from CCAMS events or share ways you think others would benefit. Look us up and click "Like."

Attendees learn about new technology and equipment in the exhibit area (above). Mr. & Mrs. Bob Duke present a check for \$3,000 to CCAMS for scholarships (below).

Annual school educates, raises scholarship funds

The Corpus Christi Area Measurement Society held its annual measurement school February 20 and 21, 2018 for students in an effort to provide instruction and enhance expertise in the oil and gas industry.

Attendees chose from several class offerings available during the two-day school, ranging from equipment operation and maintenance to sample acquisition and analysis. Classes were held in seminar and hands-on formats.

Hoping to capitalize on the recent upturn in oil prices, the CCAMS board anticipated strong attendance. *Continued on page 2*

Thank You

The CCAMS Board wishes to thank all of the students, exhibitors, instructors and volunteers who put in countless hours preparing for and participating in the 2018 Measurement School. Without everyone's efforts, the school would not have been so successful. Also, a huge "Thank You!" to Mr. & Mrs. Bob Duke for their generous donation to the CCAMS scholarship fund (see photo on Page 1). They have helped so many in so many different ways! We appreciate you both!

Mark your calendars

Can you believe it? The CCAMS Board is already busy planning next year's school. The first steps involve reserving the meetings space and facilities. Therefore, reservations have already been made to hold the Measurement School on February 19 - 20, 2019.

Spread the word and make plans to attend. We'll see you next year!

CCAMS Board Members

- Troy Dodson - President
- Chris French - Vice President
- Warren Lang - Secretary
- Diana Cantu - Treasurer
- Matt Downs - Board Member
- Clay Hammond - Board Member
- Lisa James - Board Member
- John Martin - Board Member
- Bill Stahl - Board Member
- Jim Lee - Special Advisor

Final tallies totaled 462 total attendees, including students and exhibitors promoting their products and services.

Classes and late registration began on Tuesday morning after students had some time to meander through the exhibit area, which displayed the latest industry technology. In an effort to facilitate attendee interaction, Tuesday evening included a social mixer sponsored by CCAMS. For those who were present, door prizes were awarded.

Wednesday morning began with classes that continued through the late afternoon. Several hands-on classes allowed students to have a chance to try out not only new equipment in measurement, but also sample acquisition training.

The school concluded Wednesday afternoon with a "thank you" given by CCAMS President Troy Dodson. As a token of appreciation for those who attended, drawings were held for various, lucrative prizes.

"Expectations were definitely met. It was great to see new and familiar faces," E.J. de la Cruz of ThermoFisher Scientific said. "I have attended CCAMS now for the past five years. I definitely plan on continuing to schedule it in, so long as I am able."

Alexandra Dyckman of Headington Oil said, "It's a great way to network and an opportunity to expand your oil and gas knowledge."

The Board is already looking forward to and planning next year's School, and anticipating reaching more students.
