CCAMS School Registration Website Open

The committee members of the **Corpus Christi Area Measurement Society** have been working diligently all summer to make the arrangements for our school coming up **February 17th and 18th** at the **American Bank Center**.

We have recently updated the student and attendee registration website which will allow all students, exhibitors and instructors to sign up for the school with very little hassle. The link to the website is:

<http://events.r20.constantcontact.com/register/event?oeidk=a07ea1lfz5q6e49bee3&llr=758runkab>

You can also get to the registration page by going to the CCAMS website at: www.ccams.info and click on the “**register now**” button to get to the registration page.

The registration page will allow you to register up to 10 students or exhibitors with one stroll through the entry process. It doesn't get any easier than that.

We are continuing to offer payment by credit card on the registration page. The credit card is processed by PayPal but you do not need to have a PayPal account to pay with your credit card. This is a nice feature as the CCAMS is not provided any credit card numbers. We only see the payment posted to our account. You may also pay with a check by sending it to our post office box at:

CCAMS

PO Box 4650,

Corpus Christi, TX 78469

We are still securing speakers and topics for our school and want to make sure we have topics that are of interest to our students. If you have a topic that you feel would be worthwhile please let us know.

email us at: ccams2013@yahoo.com or

telephone

Jim Lee at 361-242-5525.

Exhibitor Registration Website Open

The registration page for the exhibitor booths is also open and ready for exhibitors to secure their booth space at our school. We have quite a bit of extra room available at the American Bank Center and have room for over 100 booths. Since we do have the extra room we are allowing exhibitors to secure more than one booth if they desire to do so.

We are restricting our exhibitors to hydrocarbon-related measurement equipment and services. Our intent is that our exhibitors will be exhibiting equipment and services that are educational in nature. We are not providing a venue as a sales or trade show. We would like our exhibitors to show our students equipment that helps them become more familiar with measurement, and display some of the new equipment advancements that have become available in recent years.

The exhibitor co-chairpersons are:

Lisa James and Bill Stahl.

You can contact them for the opportunity to become an exhibitor at our school. If your company and product meets our exhibitor criteria they will furnish you the exhibitor rules and the registration site where you can register for your booth.

Each exhibitor in your booth will be required to also register as a student in order to attend the school.

You can contact Bill and Lisa at the email address or telephone numbers below.

Holiday Inn Marina to be Host Hotel

The **Holiday Inn Marina Hotel** will be the host hotel for our school. The hotel has been undergoing remodeling and the rooms are very nice. We toured the hotel before we locked in the rooms and feel as though this hotel will serve our students, exhibitors and instructors with nice accommodations at a great price.

The room charge will be \$110/night King or Queen and will include free parking in their covered parking garage. The hotel is very close to several great restaurants in downtown Corpus Christi. It is also only a few blocks from the American Bank Center. The city offers a trolley services the downtown area between the hotels and the American Bank Center on a regular basis.

The website is at: www.ccams.info

You can also find us on **Facebook** at:
